

Keep Surfaces Clean to Kill COVID-19

Coronavirus disease 2019 (COVID-19) can spread easily through shared surfaces. Be sure to clean and disinfect objects regularly to limit the spread of germs.

What should I disinfect?

Disinfect anything people regularly touch. Examples include door handles, toilets, desks, light switches, computer mice and chair armrests.

How should I disinfect?

Cleaning products such as detergents and bleach solutions are the most effective in getting rid of coronaviruses. Read all product labels for more information on proper use.
